Education

Ph.D. Student in Computer Science

Rice University

Advisor: [Dr. Yuke Wang](#)

2025–May 2030 (Expected)

Houston, TX, USA

M.S. in Computer Science

Indiana University

Advisor: [Dr. Dingwen Tao](#)

2023–2025

Bloomington, IN, USA

B.S. in Physics

University of Science and Technology of China

Advisor: [Dr. Changling Zou](#)

2019–2023

Hefei, Anhui, China

Research Interests

- **Generative AI:** super-resolution image/video generation, efficient diffusion inference (cache, sparsity, pruning, parallelism), long real-time video generation.
- **AI Infra Systems:** cost-friendly LLM/diffusion/unified model serving and scalable distributed training and inference.
- **Efficient LLM:** quantization and sparse attention kernel design.

Publications

Experience

Rice University, Yuke's Laboratory
Graduate Research Assistant

2025–Present
Houston, TX, USA

- *Efficient Video Generation*: built a training-free tile-based framework with region-aware caching and communication minimized multi-GPU tile parallelism for efficient, high-quality ultra-high-resolution video generation [A1].
- *Efficient Image Generation*: proposed a semantic region-adaptive diffusion transformer to allocate computation according to regional complexity [A3].
- *Diffusion Watermarking*: designed an adaptive tile-based watermark detector with QR code error correction and resource-aware GPU scheduling for efficient, robust large-scale detection [A2].

Indiana University, HiPDAC Laboratory
Graduate Research Assistant

2023–2025
Bloomington, IN, USA

- *Efficient Distributed LLM*: introduced an extra high-precision gradient sync within compute to hide communication and recover accuracy under aggressive gradient compression [C1].
- *Efficient Distributed CLIP training*: introduced 1) reference-guided training with better generalization, data efficiency, and scaling [C2]. 2) a distributed CLIP training framework that leverages compositional optimization and communication-efficient gradient reduction for efficient training on limited resources [A4].
- *Compression in AI applications and Quantum Computing*: [C3] [C4] [C5]

Coding Language

- Python
- C/C++
- CUDA, Triton

Professional Service

- Artifact Evaluation Committee: PPoPP'26, ASPLOS'26 Spring, SOSP'25, ASPLOS'26 Summer
- Program Committee: CVPR'26, QCE'24
